- **Share expertise**
- **Share and discuss practices**

➔ Support the growth of startup in Europe

What for?

The non-profit purpose of the SERN is to reinforce the links between regional authorities, development agencies, universities and associations who build and scale up the startup ecosystems at regional level in Europe. The focus of the activities will be on the mapping and promotion of support activities to startups conducted at regional level across Europe and in mobilizing regional efforts to address relevant barriers to startups' growth, such as harmonization of policies and regulations, access to talent and to major research infrastructures.

Membership

- Membership of the SERN is open to any legal representative of European regions, development agencies, universities or any other legal entities that contribute to the development and implementation of regional policies towards startups and entrepreneurship in Europe.
